

BREAKTHROUGH INNOVATION

LUGGIE

Luggie[®]
EUROPE

The lightest travelscoot in the world

The travelling customers dreamt of a mini-scooter that is super light, foldable in one piece and very good looking. Freerider listened and answered with the unrivaled and lightest scooter in the world:

- Aluminium alloy chassis frame
- Best scoot for travelling by car, train or plane
- Folds easily to pack in soft or hard travel case
- Easily removable light lithium-poly battery
- Optional armrest
- State of the art speed control for safe operation
- Intelligent braking (electronic regenerative disc brakes)
- Fully adjustable steering tiller

Range: 18 km
Speed: max 7 km p/hr
L: 95 cm, W: 45 cm

The Luggie is foldable in 3 easy steps:
