See things near, far & on the computer-all in one

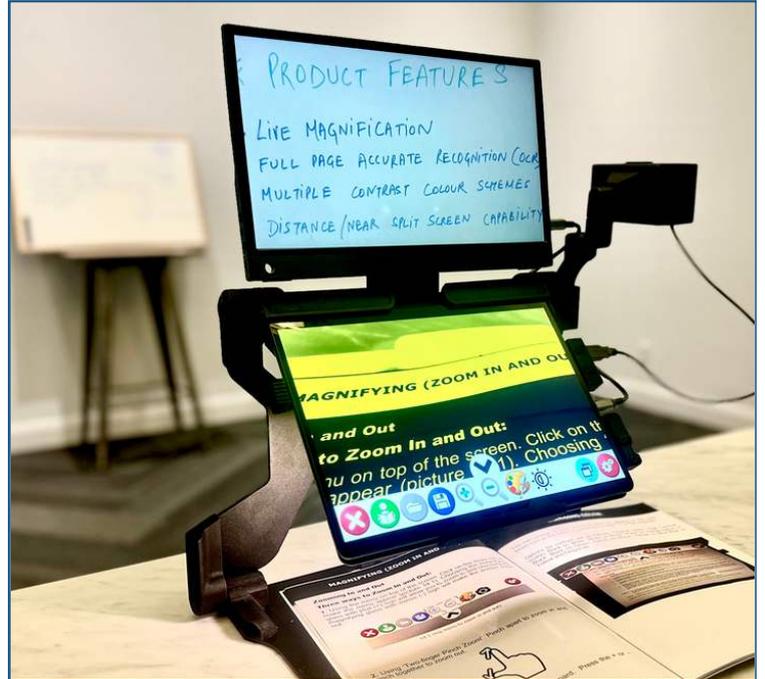

Complete low vision system-solution for visual clarity

- The lightweight, compact Windows Tablet system replaces laptops, magnifiers, and OCR devices. With a large 13-inch screen powered by Microsoft's latest Surface Pro 9, it facilitates seamless near and far viewing.
- The Mercury 13 accurately reads aloud the printed texts & saves documents for later playback, providing various voices and languages for a personalized listening experience.
- *Optional Second Screen for Expanded Viewing*
- *Optional Orion Camera for Crystal-Clear Distance Viewing (20X Zoom, ,360° Rotation)*
