Can be made to
different lengths

*Ramp can be quickly
removed if needed.

ALL RAMPS ARE BI-FOLDED FOR VEHICLE MOUNTED APPLICATIONS
Bi-Fold Systems are the same superior quality Roll-A-Ramp® used in a bi-fold fashion.
Compatible for most full size or mini-van applications.

Accessories

#3250 Quick Release Pins

Used to separate ramps into shorter sections for easy storage. Excellent for removing a short section from a longer modular system for use as a portable ramp.

#3150 Seg Mount Brackets

Use to temporarily secure ramp to landing. Quickly & easily remove ramp when needed. Sold as pair.

#3415 Pickup Tailgate Bracket

Use for temporary mount on flat surface when extra holding power is needed. Simply rivet or screw in place. Aluminum/pair.

#3612-S (short) Support Stand– Adjust: 6-11"

#3612-L (long) Support Stand– Adjust: 14-27"

Support stands recommended for ramps over 12 ft. in length; also every 8 ft. in longer systems. Sold as pair.

Non-Load Bearing Approach Plates

Use extra Approach Plates when you want to separate a ramp to make a complete shorter ramp. Makes Roll-A-Ramp® multiple ramps. Plate attaches to end of ramp. Order #3250 quick release pins to separate quickly.

#A45237-12 12" Pair

#A45237-26 26"

#A45237-30 30"

#A45237-36 36"

Vehicle Mount Brackets

Use to mount the Roll-A-Ramp® into the side or rear of vehicles, docks, boats, etc. Good option for delivery vehicles where ramp is easily bi-folded out of vehicle. Ramp also removable when not needed in place. (Bracket only - does not include additional components of Manual Bi-Fold Systems)

#3100 30" Step/Step Well Mount

#3136 36" Step/Step Well Mount

#3200 26" Flat Surface Mount

#3300 30" Flat Surface Mount

#3600 36" Flat Surface Mount

#3124 12" Step/Step Well Mount

#3224 12" Pair Flat Surface Mount

Additional 1 ft Links

Use additional links to lengthen the ramp. Links easily attach with simple tools included. Never have the wrong size ramp. Sold in 1 ft. increments.

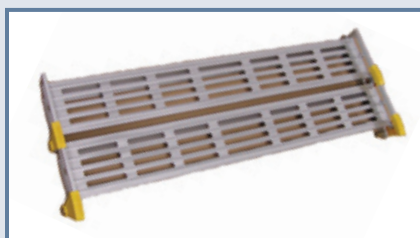

#31122 12" Pair

#31262 26"

#31302 30"

#31362 36"

Load Bearing Approach Plates

Optional replacement for top non-load bearing approach plate. For use when placement of the end of the ramp needs to be on the landing surface. Maximizes usable ramp length.

#3212 12" Pair

#3226 26"

#3235 30"

#3236 36"

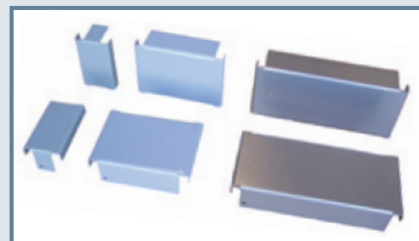

Spacers for 12" Ramp Pair

Use with the 12" pair of ramps to help keep spacing equal between top and bottom ends of ramp. Sold as each.

#3320 2" Spacer

#3350 5" Spacer

#3380 8" Spacer

#3220 30" to 26" Reducer Plate

Use this Load Bearing Approach Plate on a 30" ramp to fit 26" opening.

Modular Systems

Roll-A-Ramp® Modular Ramp Systems are designed for specific needs and requirements. Always remains portable. Quick set-up and take-down.

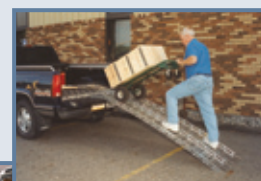

Platform & Handrail Assemblies

- High-grade aluminum handrails
- Easily attached and removed if needed, keeping the Roll-A-Ramp® portable.

#PF1-48 and #PF1-60 platform only
#PF1-48HR and #PF1-60HR with handrails
#4040-X Ramp Handrail (order length needed)

Commercial Uses

- Contractors
- A/V Market
- Delivery Vehicles
- Etc...
