

## Full flexibility, also with bariatric patients.

Liko™ FlexoStretch™ is designed for the lifting and transfer of patients in a horizontal position. The weight-bearing section comprises a complete liftsheet or five lift straps. The width of the stretcher can be set between 70 and 95 cm by adjusting the lift arms.

Liko™ FlexoStretch™ is equipped with Liko™ Stretch Leveller™, making it easy to adjust the centre of gravity during the lift.

Liko™ FlexoStretch™ can be used together with overhead lifts Likorall™ and Multirall™, as well as mobile lifts Viking™ L and Viking™ XL. Visit our website [www.liko.se](http://www.liko.se) for more information.

### Important features

- Flexible bariatric patient stretcher lift
- Adjustable lift arms
- Stretch Leveller for optimal balancing
- Made of aluminium
- Complete LiftSheet or Lift Straps as accessories

**Accessories.**

**Quick-Release Hook**

If the lift and Liko™ FlexoStretch™ are equipped with a Quick-Release Hook, the lift can be easily assembled as required without the need for tools. Liko™ FlexoStretch™ can also be combined with LikoScale™ to weigh the patient when lifting.

**Stretch Leveller**

With the included Liko™ Stretch Leveller™, you can easily adjust the lifting so that the patient lies either horizontally or slightly higher at the head end.

**Liftsheets/lift straps**

There is a choice between two sizes of complete liftsheet or, alternatively, lift straps.

The adjustable width via the lift arms means the space for the patient can be set optimally.

**Max. Load:** 300 kg (660 lbs)

**Product Number:**

- 3156057 Liko™ FlexoStretch™
- 3684100 LiftStrap XL (set of 5 straps; 2 pcs XL80 + 3 pcs XL100)
- 3684101 LiftStrap XL80
- 3684102 LiftStrap XL100
- 3684105 LiftSheet XL Regular
- 3684106 LiftSheet XL Tall

Liko™ FlexoStretch™ complies with the requirements for Medical Device Directive Class I products (MDD 93/42/EEC).
