BraillePen Slim is the Bluetooth Braille Keyboard

- It works right out of the box. No configuration or set up needed.
- Connect to your phone, netbook, PC or tablet; Write SMS, do 6-key entry into your favourite Braille translator, or simply type.
- Superbly portable, with easy action and enviable battery life, BraillePen Slim gives you simple keyboard access to computers and portable devices alike.
- Your BraillePen Slim will save you time and frustration. Worry not about gestures on your touchphone. Easy to remember and intuitive key combinations will make navigating and writing on your external device a pleasure.
- The BraillePen Slim works with iOS VoiceOver, Talks, Mobile Accessibility, Supernova and Window Eyes; it allows you to operate Windows XP, Vista, Windows 7 and Windows 8 as a Bluetooth keyboard with our BraillePen Write software.
- Carry your BraillePen Slim safely in a beautiful leather pouch.
