

Monkey by Jenx

A simple, yet highly adjustable standing system that provides prone to upright positioning for children from 9 months to 4 years

Always Supportive...

Monkey by Jenx

Specifically designed to appeal to young children and their families, Monkey by Jenx is an ideal fun and gentle introduction to standing. Offering smooth and easy angle adjustment, even with the child in the product, Monkey can go from upright at 90° right down to 20° prone – perfect for gradually building tolerance to standing as part of a therapy programme. The capacity for outstanding thoracic and pelvic support coupled with flexible leg positioning make Monkey prone stander a great option for almost every child.

INNOVATIVE FEATURE

De-rotational Thoracic and Pelvic Straps, with Lateral Support Pads

Straps fasten in the centre and adjust independently from either side, enabling a midline position to be achieved and maintained. Buckles and hook and loop material mean that, once adjusted correctly, the straps can be fixed making it difficult for siblings or classmates to tamper with as well as keeping everything looking neat and tidy!

INNOVATIVE FEATURE

Symmetrical Adjusting Hip Straps

Fastened in the centre and then adjusted from either side to keep a child's hips in midline. This is the key feature that keeps the child close to the standing support.

INNOVATIVE FEATURE

Removable Abduction Block

Provided as standard to help create and support an abducted standing posture.

INNOVATIVE FEATURE

Independently Adjustable Thoracic and Pelvic Boards

Allowing the exact proportions of each child to be catered for, whilst also giving scope to avoid pressure on delicate areas such as feeding buttons.

**INNOVATIVE
FEATURE**

**Comfortable
Upholstery**

Fully upholstered chest, hip and leg boards help make standing more comfortable for children, which helps to increase their tolerance of standing too.

Quick Set-up

Monkey comes as a complete unit meaning that what you receive out of the box is ready to be quickly and easily set-up (with very few adjustments required) so your child can start using it straight away.

**INNOVATIVE
FEATURE**

Always Encouraging...

Every position a child adopts has an effect on their development and functional movement now and in the future.

Improves blood pressure & circulation

Aids respiration & speech

Helps digestion, bowel & bladder emptying

Helps relieve pressure created during sitting

Encourages bone & muscle development

Supports pelvis, thighs & feet so children can join in everyday activity

Assists freedom to explore & participate

Provides new independence & increases social skills

Children gain huge psychological benefits from standing, as well as important physical and development changes.

INNOVATIVE FEATURE

Smooth & Simple Angle Adjustment

The angle of the frame can be adjusted with the child in the standing frame.

INNOVATIVE FEATURE

Sandal Straps

Sandals fully open at the back, making self transfers easier for the child and carer.

**INNOVATIVE
FEATURE**

Bright and Friendly

The first diagnosis of a child's special needs can be very difficult for parents who have to learn a whole new vocabulary and deal with equipment and treatments that are new and bewildering. With this in mind, Monkey by Jenx has been carefully designed to offer the best in early intervention support in a gentle, bright and friendly way. Parents often comment on the huge difference this thoughtful design has had in helping them accept and use standing equipment for their very young children.

Always Configurable Accessories

Monkey by Jenx comes complete with:

- Chest, hip and leg support boards
- Chest and hip straps
- Footboard
- 4 lockable, swivel castors
- Adjustable chest, hip and leg positioning pads
- Integrated angle adjustable tray with bowl
- Size 1 sandals

Sandals

Straps open from the back facilitating easy stand transfers into prone standing. Monkey comes with size 1 **Sandals** as standard – larger children or children wearing splints may find size 2 **Sandals** more appropriate.

Sandal Raising blocks

Available for every size of Jenx **Sandals**, the raising block kits give the **Sandals** that extra bit of height where needed! Use to accommodate for leg length discrepancy or use to raise the height of the footplate on any product to maximise the available growth.

NB: One kit needed per individual sandal.

Activity Frame

Great for encouraging head control and hand/eye co-ordination. Easy to attach and adjust. Comes with two clips for attaching toys or other items.

Grab bar

Perfect for children who need to fix one hand to increase functionality.

Always Adaptable

Visit jenx.com for more information.

**Integral Angle
Adjustable Tray**

Provided as standard, with both bowl and smooth tray infill for a wide variety of different activities.
