HÖGG LIFTSYSTEME

More mobility – for a better quality of life

RL60

The unique stairlift

RL60

The solution to overcome your staircase with the wheelchair

The wheelchair ceiling lift is a unique solution for the wheelchair user to be completely independent and mobile. The sturdy design is in accordance with the highest safety standard to ensure comfortable transportation between different floors. Boarding, departure and parking areas can be adapted to suit your needs and local conditions. Attaching the wheelchair to the ceiling lift and the operation are simple thanks to ergonomic controls and customization, with a few simple steps. This also with limited motor skills by the lift user or by an attendant.

1

2

3

1. Attachment to concrete ceiling or wooden ceiling possible
2. Parking lot of the lift
3. Driving into the receiving bracket

The hooking on the rear oft he weelchair is done by driving in with the wheelchair, in front by the adaptation of the holder, without effort

Easy construction

The RL60 can be easily installed everywhere – even in narrow staircases with steep incline. By simple adjustments even the rail guide through doors is possible. The drive mechanism employs the latest technology for your guarantee of long-term safety.

Platform optional

The platform is attached directly to the slings. With the wheelchair you drive on the platform and secure yourself with the belt.

Manual control unit on spiral cable for individual operation

Front attachment to the wheelchair

Wireless station for calling and sending the lift
