**easier**

REVISION Nº1

PRODUCT CATALOGUE | **2022**

# GEEMARC TELECOM

## About

Geemarc was **founded** in **1974**. In 1984, we were **one of the first** to obtain a licence to import **cordless telephones** for the British market.

Today, Geemarc Telecom specialises, as a manufacturer, in the sale of products specifically suited to the needs of **hearing-impaired, visually-impaired, senior citizens** and people living with **dementia**. Products range from corded, cordless, mobile phones, TV and/or hearing-aid headsets, clocks, alarm clocks and accessories.

We also supply the **accessibility** market for establishments open to the public (retail, public authorities, public transport, car services, etc), with numerous products including **induction loop** guide posts, alerters and floor-mounted guides, etc.

Our products are also **recommended** by many **specialists**.

Geemarc Telecom is constantly **innovating** to make your **daily** life **easier** !

## CLA2 EX

AMPLICALL RANGE

# AMPLICALL RANGE

Enjoy every moment in complete serenity

## PAIRING EXAMPLE N°1

Produits: **AMPLICALL 140** **AMPLICALL 150**

By placing the AMPLICALL140's microphone next to you doorbell or smoke detector, you can have the AMPLICALL150 ring, vibrate and flash to alert you that either one of those devices is ringing.

## PAIRING EXAMPLE N°2

Produits: **AMPLICALL 101** **AMPLICALL 150**

By fixing the AMPLICALL101 on the wall next to your entrance door, you can have the AMPLICALL150 ring, vibrate and flash whenever someone is at your door. The AMPLICALL101 doorbell can also be worn as a SOS pendant, in a household that counts a member who cannot go about his or her day without the help of other family members.

## PAIRING EXAMPLE N°3

Produits: **AMPLICALL 140** **AMPLICALL 100**

By fixing the AMPLICALL101 on the wall next to your entrance door and placing the AMPLICALL140 without its piezo next to your baby's crib, the AMPLICALL100 will flash and ring to alert you whenever someone is at the door, or whenever your presence is needed in your child's room.

## PAIRING EXAMPLE N°4

Produits: **AMPLICALL 110** **AMPLICALL 150** **AMPLICALL 100**

By fixing the AMPLICALL101 on the wall next to your entrance door and connecting the AMPLICALL110 to your telephone, the AMPLICALL 150 and 100 will flash, ring and vibrate to alert you whenever someone is at the door or tries to reach you on the phone.

At Geemarc Telecom, we are committed to act in favour of the environment. That is why we are always aiming at reducing the percentage of plastic in our packaging. Every year, we also participate in the development of the recycling sector through financial contributions.

**Valpak**

VALPAK is the UK's largest and most established environmental compliance scheme. It's a non-profit eco-organization publicly licensed to help companies handle the collection, treatment, and recycling of waste electrical and electronic equipment in the United-Kingdom.

Geemarc Telecom also contributes financially to the development of the recycling industry in other countries.

In France, ECO-EMBALLAGE is a private company licensed by the State to handle the sorting and recycling of household packaging all over the country.

In Germany, GRS BATTERIEN is an eco-organization which works to collect and recycle all types of used batteries.
