Ergonomics, aesthetics and accessibility
never go out of style

The Focaccia Group is proud to introduce the restyling of the Fiorella Wheelchair Lift, one of the most innovative products of its kind in the world. The new Fiorella features include improved style and functionality, and represents the perfect combination of ergonomics, safety and accessibility for wheelchair users and their accessible vehicle conversion.

The Fiorella Lift is the perfect balance between functionality, safety and ergonomics. It is light, compact and suitable for use in the majority of the modern vehicles, setting a new level of aesthetics and comfort. Fiorella was designed specifically for people and it is also available in the Extended version which boasts a larger platform, particularly suitable for modern electric wheelchairs.

All lift functions can be easily controlled with the standard wireless remote control or with the optional F-Wired remote. The intuitive multilingual LCD interface informs the user when a service is required or a maintenance interval is approaching, both with visual messages and audible reminders.

Standard Wireless Remote

F-Wired Optional Remote

NEW FEATURES

New grey colour to blend with most interior trims

New anti-slip surface dedicated to the Standard lift model platform

Stylish redesign of the pump housing

The pump handle has been relocated

New, full length, instructional sticker on the lift arm

New aluminium warning on the bridge plate

APPLICATIONS

The Fiorella Lift can be installed on a wide range of vehicles* ensuring safety and reliability as well as stylish and harmonious integration with the interior of the vehicle. From compact vehicles of smaller sizes to larger and more spacious vans, Fiorella is able to provide you with all the freedom of movement you need, ensuring the Focaccia Group high standards of quality, safety and design.
