Dimensions	29*22*2.4 cm (12*9*1 in.)
Continuous Use Time	2.5 to 3 hours
Charging Time	2 hours
Power Adapter	Input 100-240V; Output 15V/4A
Storage Capacity	13 GB

02 Users' Reviews

I bought Snow 12 for my grandma. She said it performs very well. Whenever she had any questions, she talked with the Zoomax people and they always help her in time.

Jonathan - March 4, 2022, USA

My vision is very limited and Snow 12 is a life-saver. It allows me to read the daily newspaper without holding a magnifying glass. I leave it on my dining table for convenience. I also take it when I go out, so I can use it anytime I like.

Lloyd - July 10, 2022, New Zealand

PORTABLE DEVICE

Snow Pad

Smart View, Smart Life

20
23

Will be launched in 2023.

Snow Pad is a revolutionary product, which is integrated with the characteristics of low vision aids and the intelligence of Pad, and provides users with a brand new experience when looking far, near, and self-view. It is a good solution for students, workers, and other low-vision people who wish to use both visual aids and the Pad at home or outdoors.

01 Technical Specifications

Magnification	Live 2x-30x/optical 1x-10x
Color Mode	True color + 20 kinds of color mode
Camera	10x optical zoom lens. 1920*1080 Full HD
Frame Rate	60FPS
Screen	10.2-12.9 inches
Folded Dimensions	L*W*H/353*316*61mm
Stand Height	363mm
Weight	Approx. 2Kg(without iPad)
Endurance	8h
Charging Time	6.5h
Power Adapter	Input 220V; Output 19V/3A

02 Engineers' Evaluation

A lot of customers in our product survey indicated their wishes to have a low-vision device that can be in conjunction with their iPad. It's a cool idea! Thus, we started to work on the project and are excited to announce that the Snow Pad will be ready in 2023! There is no doubt that it will be a new hit and one of the best visual aids.

From PM, Martin T

We encountered numerous obstacles while developing Snow Pad. For instance, how to make it lightweight and stable while maintaining good picture quality; how to make the features on the Pad work well and optimize the algorithm; how to make it stand out from other products on the market, etc. We kept testing and adjusting throughout the R&D process. It is a sure thing that Snow Pad will provide unique and surprising experiences to our consumers!

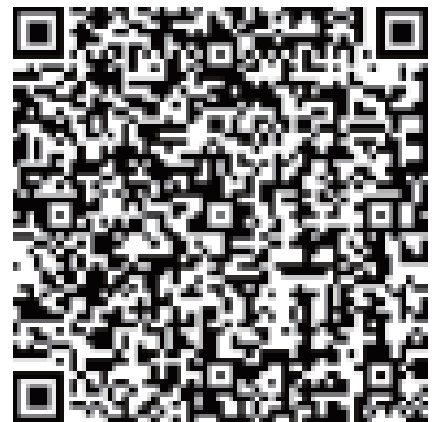

From TM, Dr. Liang

WEARABLE DEVICE

Acesight

Adopting AR technology, designed for people with 20/200 vision and other eye conditions, E-glasses Acesight is the only product on the market that enables people to be mobile in a safe environment. It provides vivid images when people watch TV, look far and communicate with others.

01 Technical Specifications

Optical Module	Augmented Reality (AR) open display
Field of View (per eye)	45°
Refresh Rate	60hz
Resolution (per eye)	Full HD 1920 ×1080
Camera	8 megapixels camera
Magnification	1.1x – 15x
Color Mode	Full color & 10 contrast colors
Outline Mode	3 enhanced outline modes
Floating Reading	Supports full pixels photo browsing with the head motions
Rechargeable Li-ion Battery	≥ 6800mAH
Work Time	4+ hours usage time

02 Users' Reviews

My Mom has tunnel vision. Because of her limited vision, she can not see everything immediately as normal eyes do. Narrow mode in Acesight is greatly helpful for her. Now, she is able to see almost the entire picture in front of her. She is truly satisfied with Acesight E-glasses!

Bion - November 29, 2022, Britain

This product is a part of my life. My daughter sent it to me as my birthday gift. With the help of Acesight, I am able to go out for a walk or shopping. I can also do google search and order something from Amazon by myself. Thanks Zoomax for inventing such a great product!

Helen - September 19, 2022, USA

02 Users' Reviews

I am from the United Kingdom. When visiting my son this year in New York, I tried Acesight S at a nearby eye clinic. I have poor eyesight because of glaucoma, but Acesight S surprised me. With Acesight S, I almost regain normal vision, and it also brings me a lot of convenience for my daily routine. It is exactly a thoughtful design!

Joan - September 9, 2022, UK

WEARABLE DEVICE

02 Users' Reviews

Acesight VR is so crucial for my husband. He is a handicraftsman and he needs to stare at small details sometimes. Acesight VR helps him a lot so he can continue his work. We cannot thank you enough!

Dennis - March 2, 2022, USA

It's a fantastic gift for my Dad. He likes Acesight VR! It's perfect for him to wear it while watching TV shows. That was what he dreamed of. I am so glad that I selected the right thing for him.

Dorothy - November 13, 2022, Canada

HANDHELD DEVICE

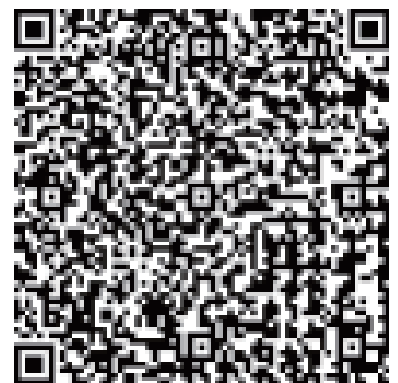

Luna 6

We Design It as You Need

Pocket-sized Luna 6 has a unique wireless charging system and built-in handle, offers sharp images even under fast movement. Users can easily carry it around and use it everywhere.

- Pocket-size and Lightweight
- Customized Wireless Charger
- Comfortable Reading with Built-in Handle

Wireless Charging Time	About 4 hours
Power Adapter	Input 100–240V; Output 5V/2.5A

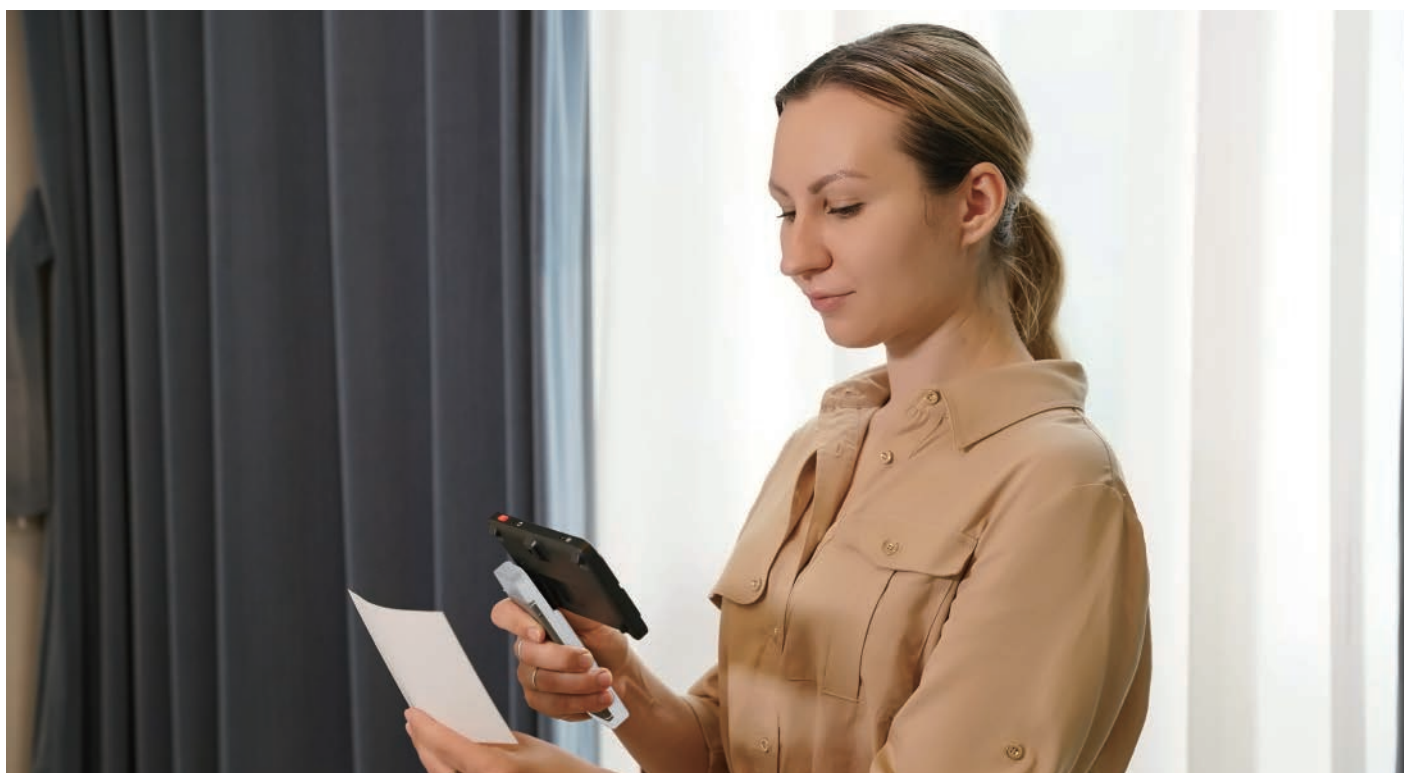

02 Users' Reviews

I bought Luna 6 from the clinic, and the service staff helped me a lot with the operation. I don't know how to express my gratitude to Zoomax. Thanks for making such a good product.

Tamara - April 5, 2022, Britain

I work in the library. I always need to check the book label. Luna 6 is the best device for me! It is light and slim so that I can bring it and use it anytime.

Kate - June 23, 2022, USA

HANDHELD DEVICE

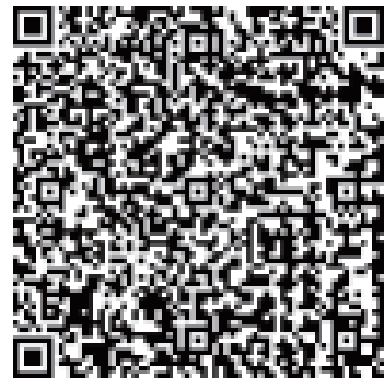

Luna 8

Simple, Useful, and Stylish

Handheld electronic video magnifier Luna 8 is ideal for using anywhere owing to its small size, lightweight design, and 8 hours of battery life. It is friendly for both young and elderly low vision users.

- Sharp Image Instantly
- 8 Hours Long Battery Life
- Easy Operation & Use Everywhere

01 Technical Specifications

Magnification	2.5X - 19X

Screen	8-inch screen; screen resolution: 1280 x 800
Camera	Auto focus; 13MP
Weight	500g (1.1lbs)
Dimensions	218 x 143 x 11mm (8.6 x 5.6 x 0.4 in)
Battery Life	8 hours
Charging Time	Less than 3 hours
Power Adapter	Input 100-240V; Output 5V/3A

02 Users' Reviews

Luna 8 is absolutely helpful for my Mom. The image is super clear. It's definitely a nice-looking item. My Mom likes it a lot!

Christen - September 27, 2022, USA

The battery life is fantastic! I used Luna 8 once a day for half an hour. It had been working for almost 15 days with fully charge.

Margret - November 21, 2022, Britain

Luna 8 looks like a cool tech gadget and it's easy to use. It has a distance viewing function, so I can see the menu board in a restaurant or the slides in a conference room easily!

Donal - August 22, 2022, USA

HANDHELD DEVICE

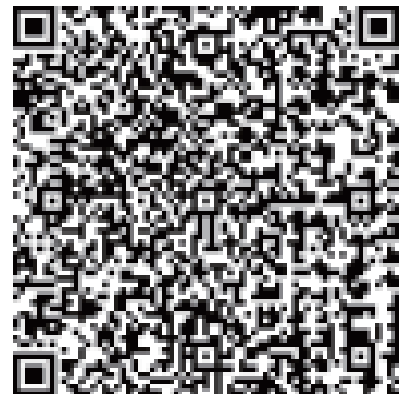

Luna S

Better and Happier

The 4.3-inch Luna S is a useful tool for those with low vision. Luna S offers sharp photos and outstanding features – it can be used to read menus, books, magazines, tags, and even listen to the radio.

Operation and Storage conditions	Humidity < 70%
Temperature	10–40 °C

02 Users' Reviews

I'm surprised by the FM radio function of Luna S. It's not only the best visual aid I've ever used but also a product of entertainment for me. I always use Luna S to listen to my favorite radio station. And the matching free ear bugs are of high quality.

Tracy J - March 23, 2022, USA

Luna S is definitely the lightest, the most convenient hand-held electronic magnifier I've ever used. And Zoomax people are all responsible and friendly!

Mia - March 29, 2022, Singapore

My brother needs a visual aid at school. The customer service recommended Luna S, and we were so satisfied with the image and the design. Thanks for your great recommendation!

Wayne - August 8, 2022, UK

CCTV DESKTOP DEVICE

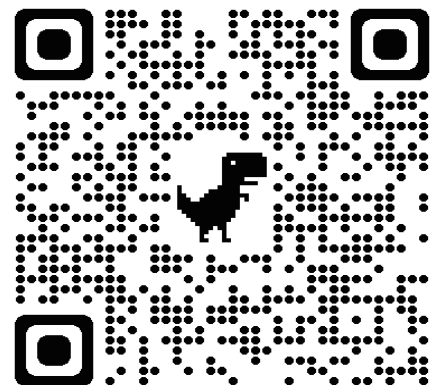

Luna HD 24 Pro

02 Users' Reviews

I can't believe that there is such a great product for low vision. With the help of Luna HD 24 Pro, I am able to continue the work I love and restart my hobby as well. I just can't stop expressing my heartfelt thanks to you!

Jasper - October 30, 2022, Russia

After trying Luna HD 24 Pro, decided to buy it. I like the large-screen electronic magnifiers, and Luna HD 24 Pro is the most user-friendly one among them! Even at large magnification, the images and text are still clear.

Sara - November 19, 2022,
United Arab Emirates

CCTV DESKTOP DEVICE

Luna Link

Link and Love

New in 2023

20
23

Luna Link allows you to connect your own monitor to achieve far-view, close-view, and self-view. It is a simple, portable, and functional low-vision aid for home, office, and school.

01 Technical Specifications

Magnification	Live 2x - 30x/ optical 1x - 18x
Color Mode	True color + 20 kinds of color mode
Camera	18x optical zoom lens, auto focusing with the resolution of 1920*1080/Full HD
Frame Rate	60FPS
Size	L*W*H/354*150*377mm
Weight	About 1.5 Kg
Power Adapter	Input 220V; Output 19V/3A
Basic Mode and Advanced Mode	<p>Zoom in/out, snap, save pictures, color mode change, gallery review, switch the refresh rate, adjust contrast and brightness of the screen and LED light, etc.</p> <p>Reading line, panning, more colors preference, finding function, restore factory setting, software updates.</p>

02

Engineers' Evaluation

Luna Link is a special design for users who already have a monitor at home. Some users need a desktop visual aid, but buying a desktop video magnifier with the large screen would take up too much desk space. Luna Link is designed for this situation, helping people save space as well as money. Besides, Luna Link is easy to use, just plug in and then use it directly!

From PM, Tina Wu

CCTV DESKTOP DEVICE

Luna Eye

My Best Eyemate

20
23

Compared with other desktop video magnifiers, Luna Eye is space-saving and compact. With triple view modes : distance view, close view, and self-view, Luna Eye enables people to look around, read, make up and shave.

01 Technical Specifications

Magnification	live 2x – 30x/ optical 1x – 18x
Color Mode	True color + 20 kinds of color mode
Camera	18x optical zoom lens, auto focusing with resolution of 1920*1080/Full HD
Frame Rate	60FPS
Screen	24 –27 inch
Size	L*W*H/612*312*643mm
Weight	About 6.1 Kg
Power Adapter	Input 220V; Output 19V/3A
Basic Mode and Advanced Mode	<p>Zoom in/out, snap, save pictures, color mode change, gallery review, switch the refresh rate, adjust contrast and brightness of screen and LED light, etc.</p> <p>Reading line, panning, more colors preference, find, Demo, restore factory setting, software updates.</p>

02

Engineers' Evaluation

Traditional desktop video magnifiers feature a big XY table, therefore they are better for people who have a big desk. Luna Eye is a good option for customers who want a desktop video magnifier without XY table. Traditional CCTV, on the other hand, is a bit bulky. However, most people are able to take Luna Eye from here to there in the house as they like. One thing awesome is you can use self-view so that you will make sure your face is looking nice enough as you wish before meeting your friends or loved ones.
